Church Members: Staff is aware that some outgoing church email is landing in your spam or junk folders. This seems especially prevalent with church members with email addresses that end with **@otelco.net**. For church members who use Otelco for their email, you must log in to **https://webmail.otelco.net** using your email address and password. Go to your spam folder and find emails from church staff, open them, and click on ALLOW SENDER. That should add that sender's email address to your safe list. There is also a way to do this so that ALL email coming from **@otelco.net** no longer ends up in your spam folder; this is called "**whitelisting**" the domain via your email account's settings. Otelco's Internet Technical Support will be happy to walk you through this process. **Call 1-866-761-3462**. We suggest that you opt for leaving your telephone number for a call back instead of being placed on hold and waiting. They will call you back promptly (caller ID will most likely be a 660 area code as they are based in Missouri). They will walk you through how to whitelist **oneontafbc.org** in your settings at no charge to you. Their hours are from 8 a.m. to 9 p.m. Monday through Friday; 12 p.m. to 6 p.m. on Saturdays. Please be sure to do this so that emails sent from the church staff go to your email inbox.

WE HAVE A NEW GUEST WIFI PASSWORD. It is [psalm11937](#).
